Ending a Session

Introduction

When the activity defining your current Session is complete, and you would like to stop communicating your location and safety with your Organisation, the Session should be ended.

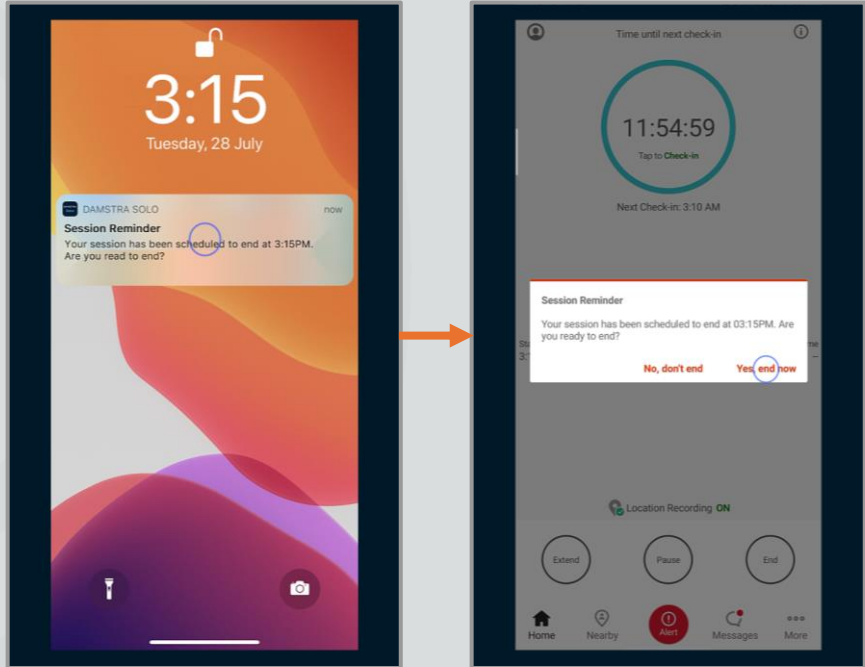

Ending a Session

End time nominated, check-ins required

If your session was started either via the 'Session Scheduling' or 'Auto-start' functionalities you will receive a push notification at the scheduled end time asking you to confirm that you wish to end the session.

Tap 'Yes, end now' to end the session

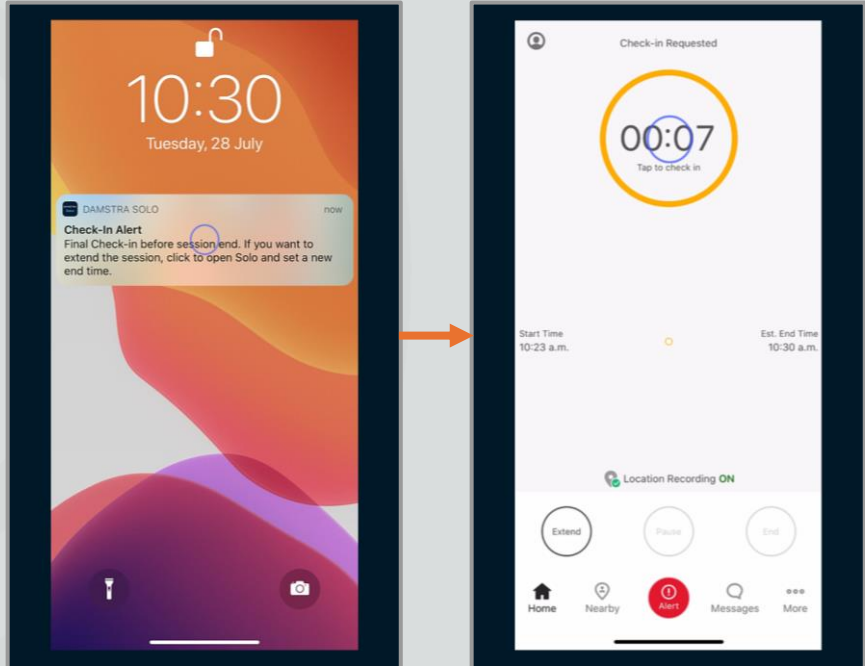

Ending a Session

End time nominated, check-ins required

If an end time was nominated at the start of the session and you are using a profile that requires regular check-ins, you will receive a push notification at the nominated time requesting a final check-in.

Tap the *check-in* area within the profile's grace period to complete the final check-in.

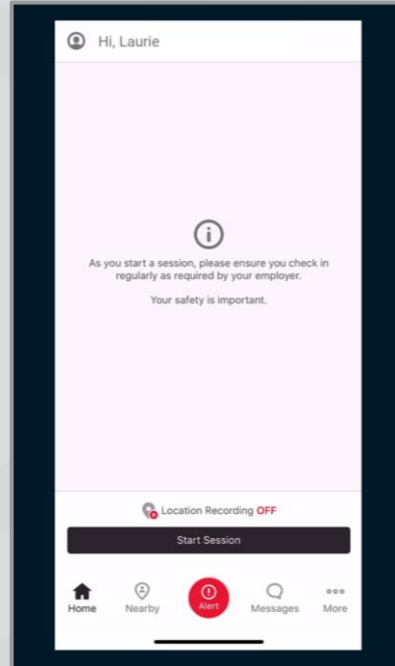

Once done, the session will end.

Ending a Session

End time nominated, no check-ins

If you're using a profile that does not require regular check-ins, the session will automatically end at the nominated time with no further action required.

Ending a Session

No end time nominated or early finish required

If an end time was not nominated, or the nominated time has not yet been reached but you'd like to end the session earlier, from within the current active session, **tap** the 'End' icon, then **tap** to confirm.
